DIGICOM

Alcatel·Lucent Enterprise

What'll you do now that NEC is checking out of your hotel?

First Toshiba, then Panasonic and now NEC is packing up and leaving on-premises Unified Communications (UC). This leaves your hotel with a huge vacancy in your PBX deployment and many unanswered questions:

How can I support my unique on-premises UC needs?

Can I future-proof and grow my UC without moving to the cloud?

Is there a path if I want to stay with my premises-based systems?

Alcatel-Lucent Enterprise understands the mission-critical importance of uninterrupted communications. We're committed to supporting your customer communications so it fits the operational model you choose – giving you a choice if you want to remain on-premises.

Check into the ALE Network for:

- Choice of connectivity
- Choice of platform
- Choice of deployment and business model

Schedule a meeting with us to explore all your options!
