The Alcatel-Lucent Enterprise 8254 DECT Handset is a ruggedized IP65 handset that provides business communication features. The Alcatel-Lucent Enterprise telephony protocol (AGAP) lets users access the corporate directory and couple with ALE DeskPhones to ensure a call is never missed.

Compatible with ALE DECT handsets, the 8254 DECT Handset is perfect for vertical industries such as healthcare and retail. This robust wireless handset can withstand a 2-meter drop onto concrete. Antibacterial by design and easy to clean, make this device ideal for medical staff use. The plastics, lens and rubber components have an antibacterial treatment, and the keypad is designed without interstice, ensuring a greater level of hygiene.

The 8254 DECT Handset also provides notification and location capabilities, as well as a one-button alarm function to address vertical markets such as hospitality, healthcare or any other on-demand environment. The rubber elements also provide a better grip for a day-to-day usage even when wearing gloves.

The 8254 DECT Handset is compatible with ALE TDM and IP base stations, levering the existing infrastructure and protecting your investments.
