

ALIAS

Soundeyes certified with OmniPCX Enterprise™

SOUNDEYES's Audio and Video recorder is a scalable and modular recording solution capable of adapting to the constraints of each site for the recording and operating of telephony (active or passive in digital analog or IP), radio (analog or IP), video or conference system (analog, Dante...).

SOUNDEYES is certified by the AFNOR as a software for public safety in France

Integration Overview:

Soundeyes's solutions can record Alcatel-Lucent OmniPCX telephony systems using two methods:

Active, via DR-LINK interfaces;

Passive, by using tapping cards or ethernet/IP mirror ports.

The same system can also record other telephones models, radio and video. Many APIs allow fine-grained integration with the business IT systems of the site to be equipped

Integration Details:

In Alcatel Lucent OmniPCX Enterprise environment, Soundeyes records using IP-DRLINK or TDM-DRLINK technologies. These two technologies can be mixed on the same recording system.

Windows's software SEPlayer allows extensive exploitation of the recordings, and SEWebPlayer provides instant replay and search and playback interface in a standard HTML5 browser.

Company Overview:

Based in France, ALIAS SAS is the designer of Soundeyes recording solution. Soundeyes recorders are being used by a large number of companies or public services such as:

- Public safety sites in France, Switzerland and Belgium (fire station, SAMU, police station...);
- Ports and airports, public transportations;
- Large international organizations (European Parliament, WHO, UNESCO...);
- But also, for all types of recording needs (city hall, businesses, FM radio...)

CAUTION: This validation provides customers with confidence that a partner's integration with an Alcatel-Lucent Enterprise on-premises platform is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

However, be aware, this document is associated with an InterWorking Report (IWR) available on the ALE Business Portal which give all possible restrictions and limits.
