Company Overview:

Antamedia is a privately held company (since 2001), bringing the benefits of specialist business software first to small and medium businesses and more recently to global corporations and governments worldwide. We started by helping sole proprietors fulfill their dreams of owning their own business; today we are proud to retain that ethos of personal customer care for even our largest corporate clients..

CAUTION: This validation provides customers with confidence that a partner's integration with an Alcatel-Lucent Enterprise on-premises platform is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering. However, be aware, this document is associated with an InterWorking Report (IWR) available on the ALE Business Portal which give all possible restrictions and limits.
