ASCOM
Myco 4 certified with OmniPCX Enterprise™

ascom

The **Ascom Myco™ 4** is more than just a phone. It is a rugged, enterprise-grade smartphone: **The smartphone for smarter communication and collaboration**

Integration Overview:

Consolidating the features and functions of several devices into a single rugged, disinfectant-ready, Android Enterprise Recommended smartphone, Myco 4 is the ideal interface for staff and management who are looking for smarter communication and collaboration at work.
Integration Details:

The Ascom Myco™ 4 is a rugged, enterprise-grade smartphone that is purpose-built to deliver value:

- Helping you consolidate devices, improve operational efficiency and lower the total cost of ownership (TCO).
- Giving you a tough, professional-grade smartphone that withstands the harsh demands of professional working environments.
- Helping staff feel secure with the latest in personal alarm functionality.
- Ensuring mission-critical communication and collaboration where the right information is in the right hands at the right time.

The Myco 4 is available in following variants:

- Ascom Myco 4, 5G and Wi-Fi
- Ascom Myco 4, Wi-Fi only (DECT and Wi-Fi available in early 2025)
- Ascom Myco 4 Slim, 5G and Wi-Fi
- Ascom Myco 4 Slim, Wi-Fi only
