

Three **quick and easy** ways to ensure **business resiliency**

In today's challenging times, the key to ensuring business resiliency is being able to provide employees with the tools to effectively and securely communicate, collaborate, and remain productive while working remotely.

ENSURE BUSINESS RESILIENCY NOW AND IN THE FUTURE

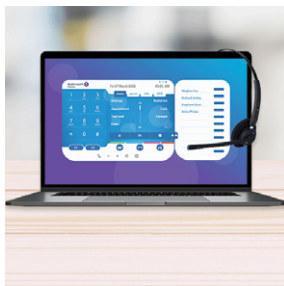

Find out how Alcatel-Lucent Enterprise can help you enable efficient remote working.

ENABLE REMOTE TEAM COMMUNICATION AND COLLABORATION

With Alcatel-Lucent Rainbow, keep employees connected and engaged with colleagues, customers and business partners regardless of where they are located. In only a few seconds, create an account and begin messaging, launching audio and video calls, and sharing files.

KEEP EMPLOYEES CONNECTED FROM ANYWHERE, ANYTIME

COMMUNICATE AT HOME LIKE IN THE OFFICE

Remain Connected to your customers with Alcatel-Lucent IP Desktop Softphone. Maintain a consistent level of customer service while your agents work remotely. Our solution combines all the call-management features of your office desk phones, on your personal laptop.

INSTANTLY ACCESS YOUR PHONE REMOTELY ON YOUR COMPUTER

PROVIDE SECURE NETWORK ACCESS FROM HOME

With the Alcatel-Lucent OmniAccess Stellar AP1201H access point, easily extend your corporate network to all remote workers by letting them securely connect to any non cloud-based applications and databases for business continuity.

ENABLE SECURE REMOTE CONNECTIONS
