

Jurudata Services SB

JDS Winpac certified with OmniPCX Enterprise™

JDS WINPAC - All in One Integrated Hospitality Solution suite for Hospitality solutions and middleware for PMS Integration.

JDS vision is to design, develop and implement software solutions for Hospitality industry with latest technology, ranging from SIP Voice, Web & Cloud Based Solutions, to Apple & Android Mobile Applications.

Integration Overview:

JDS Winpac PMSi is designed as the mediator between PMS systems and PBXs which helps to enable various functionality of the said system whilst capturing various call charges and activities within the hotel.

The solution consists of two software components: PMSi and VRS.

Web : <https://jds.com.my>

The solution consists of two software components.

JDS Winpac Property Management System Interface (PMSi) is a windows application which connects to OXE using AHL – TCPIP.

WINPAC PMSi or commonly known as Call Accounting System, is a Middleware integrating to both Hotel PMS System (or commonly known as Front Office System) and Alcatel PBX System to enable check-in/check-out, barring/unbarring of Guest Room telephone extensions, call charge computation, posting of telephone charges to Hotel PMS System and all other guest & admin related telephony features.

WINPAC supports both AHL and FIAS.

WINPAC Voice Related Systems (VRS) is a voice activated and voice confirmation software which consists of Voice Mail, Auto Wake-up, Minibar Posting and Room Status Updating modules. Hotel can opt to deploy either Analog or SIP Based WINPAC VRS depending on Alcatel PBX Model chosen.

Voice Mail System use the SIP trunking connection.

Company Overview:

Jurudata Services Sdn Bhd, or commonly known as JDS, first started its operation in Malaysia since Year 1994 and had since expanded with local branch offices in China & Thailand respectively.

JDS (Jurudata Services Sdn Bhd) is a dynamic and innovative company committed to high growth by developing solutions that integrates data, computer telephony and IP technologies which enhance the profitability and productivity of our customer internationally.

With a group of dynamic & innovative professionals, JDS has in-house developed a suite of Guest-Centric hospitality solutions which are used by hoteliers in more than 25 countries.

CAUTION: This validation provides customers with confidence that a partner's integration with an Alcatel-Lucent Enterprise on-premises platform is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering. However, be aware, this document is associated with an InterWorking Report (IWR) available on the ALE Business Portal which give all possible restrictions and limits.
