Attendant set

8AL90384ENAAed01 -1938
Introduction

This document describes the services offered by a Premium or Smart DeskPhone attendant set connected to an OXO Connect or OXO Connect Evolution.

The following terminals can be connected to OXO Connect:

- Alcatel-Lucent 8088 Smart DeskPhone V2 (8088).
- Alcatel-Lucent 8078s Bluetooth® Premium DeskPhone (8078s BT).
- Alcatel-Lucent 8078s Premium DeskPhone (8078s).
- Alcatel-Lucent 8068s Bluetooth® Premium DeskPhone (8068s BT).
- Alcatel-Lucent 8068s Premium DeskPhone (8068s).
- Alcatel-Lucent 8058s Premium DeskPhone (8058s).
- Alcatel-Lucent 8039s Premium DeskPhone (8039s).

The following terminals can be connected to OXO Connect Evolution:

- Alcatel-Lucent 8088 Smart DeskPhone V2 (8088).
- Alcatel-Lucent 8078s Bluetooth® Premium DeskPhone (8078s BT).
- Alcatel-Lucent 8078s Premium DeskPhone (8078s).
- Alcatel-Lucent 8068s Bluetooth® Premium DeskPhone (8068s BT).
- Alcatel-Lucent 8068s Premium DeskPhone (8068s).
- Alcatel-Lucent 8058s Premium DeskPhone (8058s).
- Alcatel-Lucent 8058s Premium DeskPhone (8058s).

This guide covers the specific functions of the Premium or Smart DeskPhone attendant set:

- Restricted service.
- Reserving a group of outside lines for exclusive operator use.
- Diverting operator calls to another number.
- Broadcasting background music on the external loudspeaker.
- Answering a night call.
- Programming.

Refer to the phones user manual for a full description of the deskphone (8AL90340ENADed01).

The operator station receives incoming calls and routes them to the appropriate extensions within the system.

Depending on the amount of traffic handled, your system can have one or more operator stations:

- Grouped: all stations ring simultaneously.
- Assigned to specific time periods: only stations currently operational will ring.

This option is set up by your installation technician.

The labels and icons displayed depend on the type and the skin of the set. The label is not displayed if the corresponding feature is not configured on your telephone system. Depending on the size of the display, some labels may be truncated. All labels are displayed in color and are italicized. This icon describes a succession of actions or labels you have to do or select: ‣. This icon describes the consequence of an action: ➤.

1 Getting to know your telephone

1.1 Phone description

1.1.1 8088 Smart Deskphone

This phone is part of the IP phone range. With its large color touchscreen display, the 8088 Smart DeskPhone delivers a great user experience and great conversation convenience with an outstanding audio quality in either hands-free mode or using the comfort handset. Additionally, the DeskPhone improves your experience with its Bluetooth® handset. The phone can automatically adjust the display brightness depending on the lighting conditions to improve user experience and achieve power savings (ambient light sensor).

**Navigation**

1. LED
   - Flashing blue: incoming call / Arrival of a new call.
   - Embedded HD Video camera with shutter. Swipe the shutter right or left to use or hide the camera. The 8088 Smart DeskPhone can be provided with or without an embedded camera.

2. Color touchscreen display with auto brightness adjustment which improves the user experience and achieves power savings (ambient light sensor).

3. Permanent feature keys: quick access to the phone's main features.

   - Wired handset.

5. 3.5 mm, 4 pole jack (TRRS standards: CTIA).

7. Loudspeaker.

8. An adjustable and stable foot.
1.1.2 8078s Bluetooth/ 8078s Premium DeskPhone

This phone is part of the IP phone range. With its 5-inch-touch-color display, the 8078s Premium DeskPhone delivers a great user experience and increased comfort with outstanding super wideband audio quality (HD audio) both in hands-free mode and when using the comfort handset. Additionally, the 8078s Bluetooth® Premium DeskPhone improves your experience with its Bluetooth® handset or other Bluetooth® accessories. The 8078s Bluetooth® Premium DeskPhone is ‘Bluetooth® Smart Ready’. You can personalize the phone by selecting a theme (skin). It is compatible with remote working. By this way, it is perfect for use at your office in your enterprise or at home (remote working).

Navigation

1. LED
   - Flashing blue: incoming call / appointment alarm.
   - Color touchscreen display with auto brightness adjustment which improves the user experience and achieves power savings (ambient light sensor).

2. Permanent feature keys: quick access to the phone’s main features.

3. Bluetooth® wireless handset (8078s BT).
   - Wired handset (super wideband or wide band audio quality).

4. 3.5 mm, 4 pole jack (TRRS standards: CTIA).

5. Magnetic alphabetic keyboard.

6. An adjustable and stable foot.

7. Super wideband loudspeaker for optimized sound.

8. Use the ‘OK’ softkey to validate your choices and options while programming or configuring.

- Use the ‘Back/Exit’ icon to go back to the previous step.
- Use the ‘setting’ icon to quick access to the user local menu.
- Use the ‘Bluetooth®’ softkey to open Bluetooth® settings.
1.1.3 8068s Bluetooth/8068s Premium DeskPhone

This phone is part of the IP phone range. With its color display associated with ten dedicated function keys and an intuitive navigation key, the 8068s Premium DeskPhone delivers a great user experience and increased convenience with an outstanding super wideband audio quality (HD audio) in both hands-free mode and when using the comfort handset. Additionally, the 8068s Bluetooth® Premium DeskPhone improves your experience with its Bluetooth® handset or other Bluetooth® accessories. The 8068s Bluetooth® Premium DeskPhone is 'Bluetooth® Smart Ready'. You can personalize the phone by selecting a theme (skin). It is compatible with remote working. By this way, it is perfect for use at your office in your enterprise or at home (remote working).

Navigation

**OK key**: use this key to validate your choices and options while programming or configuring.

**Left-right navigator**: in idle state, use this key to move from one page to another. In conversation, use this key to move between tabs of current calls (call in progress, calls on hold, incoming call). In the text edition, use this key to navigate into the text box.

**Up-down navigator**: used to scroll through the content of a page.

**Back/Exit key**: use this key to go back to the previous step. Use this key to go back to the homepage (long press).

Manage your call forwarding by pressing the key associated with the forward icon.

- **Stationary arrow**: no forwarding activated.
- **Blinking or rotating arrow according to the skin**: forwarding activated.

---

1. LED
   - Flashing blue: incoming call / appointment alarm.
   - Color display with auto brightness adjustment which enhances user experience and saves power (ambient light sensor).

2. Navigation
   - Permanent feature keys: quick access to the phone's main features.
   - Bluetooth® wireless handset (8068s BT).
   - Wired handset (super wideband or wide band audio quality).

3. 3.5 mm, 4 pole jack (TRRS standards: CTIA).

5. An adjustable and stable foot.

1.1.4 8058s Premium DeskPhone

This phone is part of the IP phone range. In addition to a color display associated to 6 dedicated function keys and an intuitive navigation key, the 8058s Premium DeskPhone provides 4 programmable softkeys as a smart add-on module, for a quick access to your favorite contacts or features. It provides a super wideband audio quality (HD audio) for telephone calls both in hands-free mode and using the comfort handset. You can personalize the phone by selecting a theme (skin). It is compatible with remote working. By this way, it is perfect for use at your office in your enterprise or at home (remote working).

User interface with virtual add-on. 4 programmable softkeys are displayed and can be used as a smart add-on module.

User interface without virtual add-on.

2 Operator station (OS) functions

2.1 Setting restricted service

This function sets the system to restricted service.

All incoming calls are directed to a general ring or a programmed number:

- Access the 'Perso' page.
- **Night**
  The label depends on the system configuration and can be defined by the administrator. Depending on the configuration, the F1 key can be used for this feature.
- Operator password.
  » Display and tone indicate service active.
  » Key icon indicates service active.

To restore normal service, repeat operation.

If an outside number has been entered by the installation technician, selection of restricted service will automatically divert calls received by the operator to the defined outside number.

2.2 Reserving a group of lines

For maximum availability of the operator station, thus assuring optimum reception of incoming calls, a group of outside lines can be reserved which will only be available to the operator station(s):

- Access the 'Perso' page.
- **Reserv**
- Operator password.
  » Display and tone indicate service active.
  » Key icon indicates service active.

To cancel the line reservation, repeat operation.
2.3 Manually diverting operator calls to another number

During a period of absence, the operator can divert all calls received (incoming calls and internals calls dialling 9) to another number:

- Access the 'Perso' page.
  
  Forward
  
  Use one of the following:
  
  - Enter number
    
    Dial the destination number.
  
  - Redial list
    
    Select one of the last numbers dialed.
  
  - Speed dial
    
    Select a speed dial destination number.
  
  - Indiv.rep.
    
    Select the destination number through the individual repertory.

- Operator password.

  Key icon indicates service active.

To cancel the diversion

- Forward
- Operator password.

2.4 Broadcasting background music on the external loudspeaker

- Access the 'Perso' page.
- Music
  
  The label depends on the system configuration and can be defined by the administrator.
- Operator password.

  Display and tone indicate service active.

  Key icon indicates service active.
2.5 Answering a night call

An incoming night call is indicated in the same way as an ordinary call:

- Your telephone rings.
- The night call name or number is displayed.
- Use one of the following:
  - Unhook the handset.
  - Press the on-hook/off-hook key of the Bluetooth® device (Bluetooth® Wireless handset).
  - Hands-free.
  - Press the key next to the incoming call icon.

2.6 Using a headset

To use a headset instead of your handset, connect a headset to your phone and activate the headset mode.

To activate or deactivate headset mode:

- Reach the 'Menu' page.
- \textit{Settings} \textit{Phone} \textit{ForcedHead}
- \textit{ON/OFF} Activating/deactivating forced headset.

Answering or making a call:

- Hands-free.
- End the call.

To activate or deactivate the loudspeaker during a conversation:

- During a conversation.
- Hands-free.

To answer in interphony mode:

- Corresponding LED lights up.
- Cancel interphony mode.
2.7 When you return, consult your general voice mailbox

The light indicates that messages have been received.

- \[\text{Genmailbox}\]
- Operator password.
- Display number of new and old messages.
- Select message.
- Validate.
- Display name of sender, with date, time and ranking of message.
- \textit{Play}: listen to message.
- \textit{Clear}: erase message.
- \textit{Send IM}: send instant message to the contact.
- \textit{Send copy}: send a copy of a message.
3 Programming functions

3.1 Accessing programming

Your OXO Connect system's operator station can access the general programming services.

- Access the 'Perso' page.
- **Operator**
- Operator password.
  - Access programming function.

To exit mode: 🔄.

3.2 Programming date and time (Clock)

- In programming function.
- **Clock**.
- Enter date and time.
  - Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.
  - **Clear**: delete a character.
- Validate.

3.3 Programming system directory (ComSpD)

This function can be used to program system short numbers, accessible to all system users:

- Reach the 'Menu' page.
- **Speed dial**
  - Display gives first short number.
- **Modify**
- Enter name (max. 16 characters).
- Validate.
- Enter the first name.
- Validate.
- Enter number (max. 21 digits).
- Validate.
- Programmed short number is displayed.

**To enter another short number:**

- Use one of the following:
  - Select another short number.
  - **New**
4 Setting various subscriber telephone parameters

4.1 Accessing the subscriber function

This feature is accessible from the programming function mode:

- Access the 'Perso' page.
- **Operator**
- Operator password.
  - Access programming function.

This function provides access to the various parameters defined for a system user or subscriber, identified by an extension number:

- **Subscriber**
- Enter extension n to be programmed.
  - Access to 'Subscriber' programming function.

To exit mode: 🔒

4.2 Subscriber name (Name)

- In 'Subscriber' function.
- **Name**
- Depending on your phone, use navigation keys or touch the area.
  - **Name**: enter name.
  - **1st name**: enter the first name.

Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.

- **Clear**: delete a character.
- **Validate**.

To enter a name with special characters (Unicode characters)

- In 'Subscriber' function.
- **Unicode Name**
- Depending on your phone, use navigation keys or touch the area.
  - **Uni Name**: enter name.
  - **Uni 1stName**: enter the first name.

Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.

- **Clear**: delete a character.
- **Validate**.
4.3 Resetting a subscriber password (ResCod)

This function is used to cancel a subscriber’s password and restore the default password (default password is defined by your administrator):

- In 'Subscriber' function.
- Pwdreset
- Validate.

4.4 Subscriber display language (Lang)

This function is used to specify the display language for the selected subscriber.

Pressing this key scrolls the various languages available:

- In 'Subscriber' function.
- Language
- Select the language of your choice.
- Validate.

4.5 Subscriber personal directory (PerSPD)

This function is used to create the personal directory of the selected subscriber:

- In 'Subscriber' function.
- Indiv.rep. Display gives first number.
- Modify
  Enter name (max. 6 characters).
  Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.
  Clear: delete a character.
- Validate.
  Enter public number (max. 19 digits).
  Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.
  Clear: delete a character.
- Validate.
4.6 Subscriber discrimination criteria (Barrng)

This function is used to define discrimination criteria for each subscriber:

- In 'Subscriber' function.
- Barring Selection displayed on first line.
- Selection the key associated with the discrimination criteria.
- Validate.

This function is used to describe discrimination criteria for each subscriber.

4.7 Enable the CLASS service

Enabling the CLASS service is used to display information (caller name, number, etc.) on the display of an analogue set.

- In 'Subscriber' function.
- Terminal
- Class
- Select the 'CLASS' service.
- Validate.

The CLASS service is selected when the 'CLASS' label is displayed on the screen.
5 Complementary 'Expert' functions

5.1 Accessing the 'Expert' function
This feature is accessible from the programming function mode:

- Access the 'Perso' page.
- **Operator**
- Operator password.
  >> Access programming function.

To access the 'Expert' function:
- **Expert**
  >> Access to 'Expert' programming function.

To exit mode: 🛑.

5.2 Table of business codes (Accoun)
This function is used to define the table of business codes enabling a subscriber to charge his/her calls to a business account:

- In 'Expert' function.
- **Account code**
- **Add**
  Create an entry.
  - **Code**
    Max. 16 digits.
  - **Name**
    Max. 16 characters.
  - **Parameter1**
  - **Parameter2**
- Validate.

**Parameter1**

- **UserID**
  Indicate whether identity required or not.
- **Protected**
  Indicate whether password required or not.

**Parameter2**

- **Barring**
  Indicate discrimination category.
- **Mask**
  Indicate number of masked digits.

**Barrin**: discrimination category: none, 1 to 16, that of subscriber (SET) or that of user (GUEST).
**Barrin**: number of digits: DEF (default value: 4), all, none, 1 to 9.
5.3 Direct numbers of extensions (PubNum)

This function is used to define the table of direct numbers (SDA) of extensions (PubNum).

- In 'Expert' function.
- **Public Nr**
- **New**
  - Create an entry.
    - Direct n° or n° forming prefix.
    - Validate.
    - Number of extensions within assigned range (max. 99).
    - Validate.
    - Public n° of first extension.
    - Validate.

**Modifying an entry:**

- Depending on your phone, use the left/right navigation keys or touch the text area to move the cursor and modify the value.
- **Clear**
  - Delete a character.
- **Goto**
  - Select specific entry.
- **Modify**
  - Modify contents of entry displayed.

5.4 Greeting messages and Music on Hold (MOH)

This function is used to define the greeting message and hold music parameters.

- In 'Expert' function.
- **Voice**
  - **Holdmusic**
    - This function is used to record 8 greeting messages or holding music.
  - **Musicsource**
    - This function is used to select a music source (3 possible sources).
  - **ACD**
    - Used to record, for each ACD group, welcome, please wait, dissuasion, closed or estimated waiting time messages.

**Holdmusic**

This function is used to record 8 greeting messages or holding music.

- **Listen**
  - Listen to the recorded default message.
- **Record**
  - Record a message.
- **Default** (Enable if a recorded message exists)
  - Erase the recorded message and replace it with the default message.
    - **Yes**
    - **No**
To record a message

- **Record**
  Display invites you to start recording.
  - **Record**
    Record message.
  - **Stop**
    To stop.
  - **Pause**
    Stop recording momentarily.
  
  Duration of message is displayed.

- Hold music may be subject to author's rights and appropriate action should be taken in this respect.

**Musicsource**

This function is used to select a music source (3 possible sources).

- Use one of the following:
  - **Default**
    By default.
  - **Customized**
    Personal.
  - **External**
    Outside.

- **OK**
- **ACD**

Used to record, for each ACD group, welcome, please wait, dissuasion, closed or estimated waiting time messages.

- Select the ACD group.
- Validate.
- Select the type of message to record.
- **Record**
  - **Record**
    Start the recording.
  - **Stop**
    To stop.
  - **Pause**
    Stop recording momentarily.

- Validate.
5.5 DECT cordless telephones

This function is used to manage DECT telephones and to create DECT GAP extensions:

Adding a DECT GAP extension:

- In 'Expert' function.
- **DECT**
- **Add**
  DECT GAP extension is created.
- **Modify**
  - Public network n of DECT extension.
  - Waiting for creation from DECT GAP extension.
- Follow the on-screen instructions.
- 🔄 At end of creation.

5.6 Changing the operator password (Passwd)

This function is used to change the operator session password:

- In 'Expert' function
- **Password**
  Display asks for old password.
- Enter the old password (8 alphanumerical characters).
  Display asks for new password.
- Enter the new password (8 alphanumerical characters).
  Display requests confirmation of new password.
- Enter new password again to confirm.

5.7 Resetting the system (RstSys)

This function is used for a hot or cold system reset:

- In 'Expert' function
- **Systemreset**
  - **Cold**
  - **Warm**
- Yes / No

A cold reset will restore your system default configuration (our specific configuration will be lost). The reset request must be confirmed.
5.8 Voice message service

This function is used to manage the voice guides and to configure the broadcasting lists.

- In "Expert" function.
- **Voice Mail**
- **Autoattend.**
  Configuration of 3 types of voice guides for the automatic switchboard (day, night, 'Good-bye') message.
- **Audiotext.**
  Configuration of 3 types of Audiotex (day, night, 'Good-bye' message).
- **MLAA**
  Record of the MLAA vocal messages (Multi-Language Automated Attendant).
- **List**
  Personalization of broadcasting lists (max. 50).
- **Gen.mailbox**
  Defining the general mailbox greeting message.
- **Infomessage**
  Recording of information messages used by the PABX and the Audiotex service (opening or closing times).
- **Notification**
  Defining the message notification announcement.

**Autoattend.**
Configuration of 3 types of voice guides for the automatic switchboard (day, night, 'Good-bye') message.

- **Day**
  Opening times voice guides.
- **Night**
  Closing times voice guides
- **Goodbye**
  Goodbye voice guides.

You can:
- Listen to the voice guide (default or personalized).
- Record a personalized voice guide.
- Erase the personalized voice guide and replace it with the default voice guide.

**Audiotext**
Configuration of 3 types of Audiotex (day, night, 'Good-bye' message).

- **Day**
  Opening times Audiotex.
- **Night**
  Closing times Audiotex.
- **Goodbye**
  Goodbye Audiotex.

You can:
- Listen to the voice guide (default or personalized).
- Record a personalized voice guide.
- Erase the personalized voice guide and replace it with the default voice guide.
**MLAA**
Record of the MLAA vocal messages (Multi-Language Automated Attendant).

- Use left and right navigation keys to select the language (14).
- Validate.
- **Listen**
  Listen to the message.
- **Record**
  Record a message for the selected language.
- **Clear**
  Erase the recorded message for the selected language.
- **Goto**
  Select another specific language.

**List**
Personalization of broadcasting lists (max. 50).

- **Listen**
  Listen to the name assigned to the list.
- **Record**
  Record a list.
- **Clear**
  Delete a broadcasting list.
- **Edit**
  Edit a list.

**Gen.mailbox**
Defining the general mailbox greeting message.

- **Listen**
  Listen to the recorded default message.
- **Record**
  Record a message.
- **Default** (Enable if a recorded message exists)
  Erase the recorded message and replace it with the default message.
  - Yes
  - No

**Infomessage**
Recording of information messages used by the PABX and the Audiotex service (opening or closing times).

- **Listen**
  Listen to the recorded message.
- **Record**
  Record a message.
- Use the left navigation key for the previous message.
- Use the right navigation key to go to the next message.
Notification
Defining the message notification announcement.

- **Listen**
  Listen to recorded default announcement.

- **Record**
  Record a personalized announcement.

- **Default** (Enable if a recorded message exists)
  Erase the recorded announcement and replace it with the default announcement.
    - **Yes**
    - **No**

5.9 Software license agreements

This function is used to read or modify the software license agreements.

- In ‘Expert’ function.
- **Softw.keys**
  - **Main**
    Reading the system software license agreement.
  - **CTI**
    Configuration of the CTI software license agreement.
6 Guarantee and clauses

6.1 Safety Instructions

- Changes or modifications to the equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Magnets could affect the functioning of pacemakers and implanted heart defibrillators. Keep a safe distance between your pacemaker or implant defibrillator and the handset which includes magnetic elements: 4 centimeters (1.6 inches) at least.
- To limit the risk of interference, people with pacemakers must keep the wireless telephone away from their equipment (minimum distance of 15 cm/6 inches).
- It is recommended to follow the standard acceptance procedures before using this equipment in human safety critical areas (hospitals...).
- The handset includes magnetic elements that may attract sharp metallic objects. To prevent injury, before each use ensure sharp metallic objects are not stuck to the earpiece and microphone.
- A Bluetooth® Handset with integrated battery is available with certain Product variants. The battery must be charged during 6 hours before initial use and must be replaced correctly to prevent danger of explosion. Use only the recommended battery. Contact your Business Partner if you need a spare battery.
- Avoid using phones (other than cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use the device in environments where there is a danger of explosion.
- Do not plug this phone into an Integrated Services Digital Network (ISDN) connection or into a regular Public Switched Telephone Network (PSTN) connection. This can result in severe damage to the phone.
- Never allow your telephone to come into contact with water.
- To clean your telephone, use a soft damp cloth. Never use solvents (trichlorethylene, acetone, etc.) which may damage the plastic parts of your telephone. Do not use aerosol cleaners.
- This product is intended to be supplied, either via the Ethernet (LAN) port, or via the DC-in by a Certified Direct Plug-In Power Unit approved as 'LPS' (Limited Power Source) against CSA/UL/IEC 60950-1 and rated 48V dc, minimum 0.27A. Allowed power supplies: WA-13B48R – Asian Power Devices Inc.
- Some Premium DeskPhones and Smart DeskPhones also offer a Bluetooth® radio interface for Bluetooth® handsets or other Bluetooth® devices frequency range 2402-2480 MHz, radiated power 5 mW.
- If you are connected to a POE connection do not use an external Power Supply.
- The cover of the phone screen is made of glass. This glass could break if the phone is dropped or it receives a significant blow. If the glass chips or cracks, stop using the phone and do not touch the broken glass as this could cause injury to you. Glass cracked due to misuse or abuse is not covered under the warranty.
6.2 Regulatory Statements

EUROPE
This equipment complies with the essential requirements of following directives: 2014/53/EU (RED), 2014/30/EU (EMC), 2014/35/EU (LVD), 2009/125/EC (ErP), 2011/65/EU (RoHS).

Declaration of Conformity may be obtained from:
ALE International 32 avenue Kléber – 92700 Colombes, France
ebg_global_supportcenter@al-enterprise.com

USA and Canada
Phones with Bluetooth® comply with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correcting the interference by consulting the dealer.

Exposure to Radio Frequency Signals
This equipment complies with radiation exposure limits set by FCC/IC and the Council of European Union for an uncontrolled environment. This equipment has very low levels of RF energy and is deemed to be compliant without testing of the specific absorption rate (SAR).

User Instructions
Use this product in temperatures between -5°C to +45°C (23°F to 113°F). This product is intended for use in an indoor environment only. This apparatus is Hearing Aid Compatible (HAC).

Acoustic shock protection
Maximum sound pressure level for handset is compliant with European, US and Australian standards.

Directive 2003/10/EC specifying the risks inherent in noise at work
The ring contributes towards overall daily noise - at its maximum setting, the level is 105 dBA at 60 cm from terminal. To reduce the level, the following is recommended:- reduce the setting (9 levels of 5 dB) - program a progressive ring.

Privacy
Privacy of communications may not be ensured when using the Bluetooth® handset or any additional Bluetooth® device.

Disposal
The equipment must be returned to a collection point for electronic equipment waste disposal. Defective batteries must be returned to a collection point for chemical waste disposal.
