## PoE-Sea certified with OmniAccess Stellar WLAN

PoE-Sea is a device allowing teachers and students to control - from their classroom - powering off WiFi access points.

### Solution Overview:

The PoE-Sea is compatible with any type of PoE-powered equipment. This *universal* solution meets the requirements of local authorities to limit electrical radio emissions in schools. In France, the PoE-Sea guarantees compliance with the legislation known as the Abeille Law. Named after MP Laurence Abeille, this law requires that WiFi terminals be cut off at the end of educational activity.

The [Abeille law](#) - n°2015-136 of February 9th, 2015 -, concerns sobriety and transparency [...] in terms of exposure to electromagnetic waves.

### Integration Details:

**CAUTION:** This validation provides customers with confidence that a partner's integration with an Alcatel-Lucent Enterprise on-premises platform is functionally sound and performs as designed. This can help customers reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

However, be aware, this document is associated with an InterWorking Report (IWR) available on the ALE Business Portal which give all possible restrictions and limits.
