

# RZESZOW UNIVERSITY OF TECHNOLOGY IMPROVES COMMUNICATIONS ON CAMPUS THANKS TO ITS NEW NETWORK SOLUTIONS

## RZESZOW UNIVERSITY OF TECHNOLOGY

### CUSTOMER INFORMATION

- Rzeszow University of Technology is one of the largest public technical universities in Poland and one of the two universities in the country offering courses for civil aviation pilots. It also offers university courses and pursues academic and research projects in other fields. The university is improving educational programs to prepare its graduates for active involvement in social and economic life.

### CHALLENGES

- Expand and update the existing Alcatel-Lucent system
- Make communication solutions available in more buildings across the campus
- Streamline the system’s central management
- Expedite maintenance in case of technical problems
- Integrate voice, video and GSM communications and provide instant messaging

### BUSINESS AND TECHNICAL BENEFITS

- Improvement of internal communications with new functionalities
- Increased system performance and stability
- Reinforcement of the network’s security
- Encryption of selected calls to ensure greater confidentiality
- Reduction in costs and elimination of paper-based fax documents

“Being responsible for the deployment and supervision of the telecommunications system, I consider the solution deployed by Innergo Systems to be one of the most modern in use by a university in Poland. The deployed solutions significantly improved communications on campus and eliminated paper-based faxes. Performance, security and stability of the entire system was also improved, including configuration and management. Overall, the system has become more intuitive.”  
*-Bogusław Tatała, IT Manager, Rzeszow University of Technology*
