How to use this guide

On the following pages, you can find your telephone brand and model, the appropriate headset, and the connection between the two components.

If your telephone brand or model is not shown, you are sure to find a solution on www.senncom.com/headsetselector.

Your telephone will either be pictured here ...

... or the telephone model will be listed among the compatible types.

This explains where to connect your headset and how to take calls.

Here you can find the name of the appropriate connection cable or adapter, as well as a picture and the item number.

The headsets shown here can be used with your telephone. Simply choose your favorite!

Descriptions of the Sennheiser headsets can be found on pages 3–8 of this guide.
