OmniPCX Enterprise

Training offer for PRESALES

OmniPCX Record

FREE

Learn quickly and at your own pace online how to design and quote this solution!

Many companies both inside and outside the Call Center world have a growing need to record transactions, especially in activities requiring law and regulations compliance. This is particularly relevant in financial services, utilities, healthcare, education, hospitality and public safety organizations.

OmniPCX Record suite is the solution to answer such business cases.

PREREQUISITES

Training offer for POSTSALES

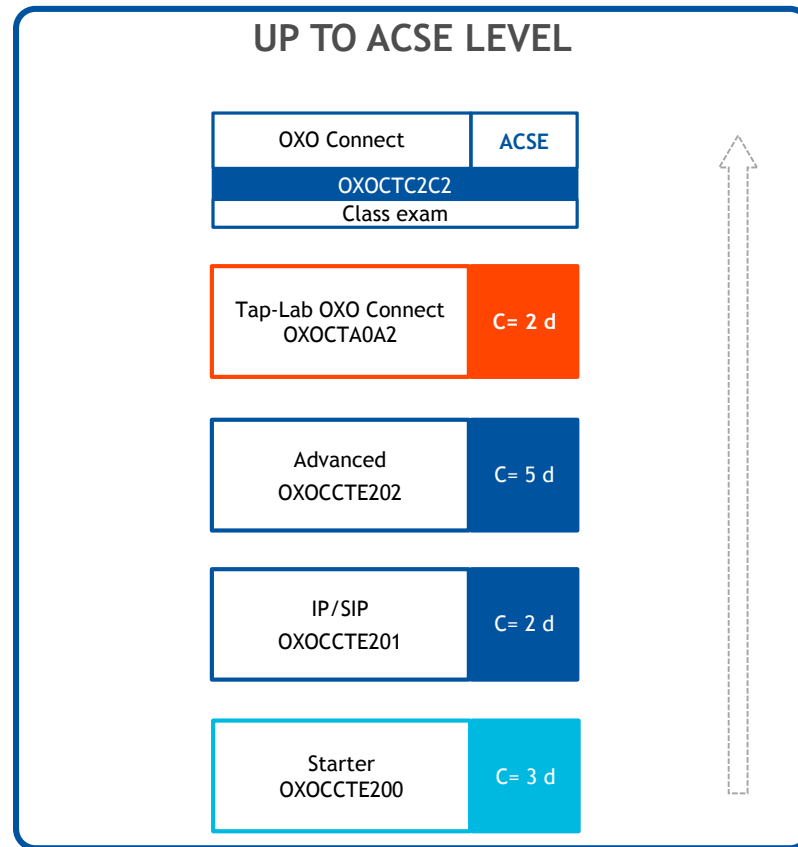

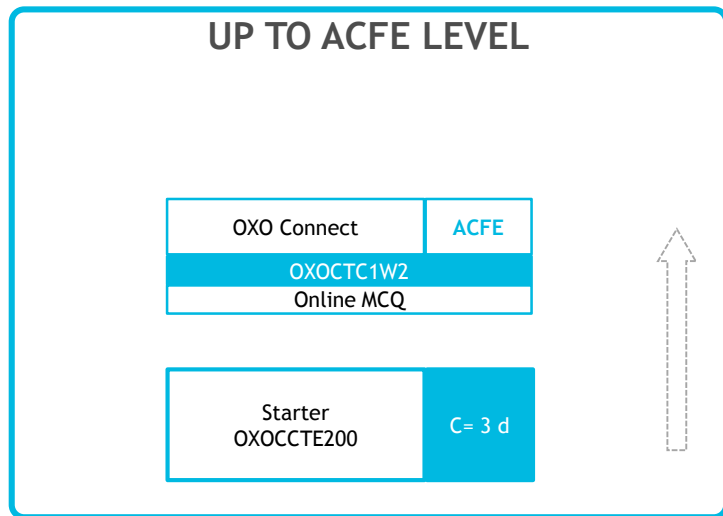

The image features a central logo consisting of two concentric circles, the inner one being a darker shade of gray. The text "OXO Connect" is centered within the inner circle. Surrounding this central element is a network diagram. It includes several smaller, solid-colored circles in purple, orange, red, and blue, scattered across the frame. These circles are interconnected by a series of thin, gray, wavy lines that create a sense of movement and connectivity. A prominent, light blue wavy line runs horizontally across the middle of the image, serving as a visual anchor for the network structure.

The Postsales training courses and certifications are managed and delivered by our Altitude Partner.

Please consult their [website](#) for information and access [Altitude University Knowledge Hub](#) for courses and certifications registration and ordering. For any question you can also [contact](#) them directly.

A new process has been implemented for automatic certification recognition with Postsales certifications equivalences (ACFE OTCS <-> ACP System Administrator and ACSE OTCS <-> ACP Solutions Developer):

- The ACFE OTCS is issued when an individual has passed the certification “ACP System Administrator” and reciprocally.
- The ACSE OTCS is issued when individual has passed the certification “ACP Solutions Developer” and reciprocally.

Training offer for POSTSALES

Altitude uCI training track

ACP SYSTEM ADMINISTRATOR

TARGET AUDIENCE

- Technical operations, IT and professional services

SKILLS

- Best industry practices for contact center management
- Advanced skills to install, maintain, operate and administrate Altitude solutions
- Set up, configure and support day-to-day operations

BENEFITS

- Improved ability to profit and deliver more with Altitude solutions
- Quick improvements to the solution
- Easier and faster to adjust operations to market trends and needs
- Certification increases business value and reputation
