### Profile #1:

The participant is trained, certified, and experienced on the OmniSwitch Lan. Before deploying a certain project for a customer, he wants to rework and practice on certain topics and features.

### Profile #2:

The participant has followed an OmniSwitch basic course (120,115,116 or 125) and wants additional time to practice on certain features after the session is terminated.

### Profile #3:

- The participant has been trained and has failed to his ACSE (or even ACFE) exam and wants to make additional practice before taking it again.
- The participant has followed the full track including Tap-lab but wants more practice before taking the ACSE the first time.
