

ATOOSOFT / GT2F

GT HOSP / HOTELIUM certified with OmniPCX Enterprise™ and OXO Connect™

GT Hosp / HOTELIUM is a Call accounting and phone management system software. It can be used in the HOSPITALITY sector, as a standalone or behind another front office like ORACLE/FIDELIO. It can also be used in ENTERPRISE mode for calls analysis.

Integration Overview:

In stand-alone mode, the solution will provide access with an embedded webserver to the users. They will be able to directly process Check-In, Check-out and use all the features offered by the AHL LINK (Wake up, Room Transfer, etc.)

Connected with another PMS, the software will act as a middleware. The user will process the operation from their solutions, and the information will be handled without the need to use our solution GUI.

Integration Details:

The solutions enable the following:

- Complete guest's rooms and administrative reports
- Plug and play setup / easy-to-use
- Hospitality functions management (Check-in, Wakeup, Room Status, Dynamic DDI, all features provided by the AHL,OHL Links) and additional billing. (Product management, automatic or manual).
- Gateway system to interconnect with others Front Office software, if managed by the the 3rd party solution, all AHL, OHL feature can be extended.
- Call data records management:
 - Incoming analysis
 - Outgoing billing
- Room or guest management.
- Hospitality mode (room management, calls billing by counter)
